Subject: New Online Micro Bird EV 360° Certification Program

Dear Micro Bird Dealer,

We are excited to announce that we have launched **level 1 of our online Micro Bird EV 360 certification program!** This program is designed to provide comprehensive training on our Micro Bird electric G5 to assist our dealers, customers and fleet operators, from drivers to technicians, become familiar at operating our electric vehicles.

Level 1 training covers three modules : Daily Operating Procedures, EV safety features and Telematics.

Targeted audience : Sales representatives, drivers, operators, mechanics and service department employees.

Level 1 Training			
Subjects	Module 1: Daily Operation	Module 2: Safety Features & Emergency Responders	Module 3: Telematics
Goal	Optimal driving behavior, charging and the basic operating features of a Micro Bird Electric Bus.	Learn and be familiar with the safety features related to operating a Micro Bird Electric Bus.	Manage Electric Buses at a distance using the internet and a computer.
Audience	<ul style="list-style-type: none"> • Sales representative • Drivers • Fleet Operators • Mechanics • Technicians 	<ul style="list-style-type: none"> • Sales representatives • Drivers • Fleet Operators • Mechanics • Technicians 	<ul style="list-style-type: none"> • Sales representatives • Mechanics • Technicians • Fleet Operators

As valued dealers of our products, we encourage you to take full advantage of this program to enhance your knowledge and skills. Whether you are **new to electric school buses**, or **have extensive experience** with our electric G5, our online training program has something to offer.

Our online training program offers a flexible, self-paced learning experience that can be accessed from anywhere with an internet connection. It includes a variety of interactive modules, videos, and assessments, as well as downloadable resources to reinforce learning and provide ongoing support.
